

EDUCATION

Georgia Institute of Technology | College of Computing | Atlanta, GA

- Bachelor's Degree in Computer Science (Dec. 2022)

EXPERIENCE

Product Planning and Logistics Co-Op | Johnson & Johnson | July 2018 – December 2022

- Developed intricate excel files to automate scheduling, destruction, and shipping of materials
- Streamlined multi-million-dollar business processes by initiating & implementing transfer from paper format to digital
- Wrote SQL scripts to pull information from company database for reporting purposes, data validation, and in support of internal & external audits
- Facilitated updates to material specifications, procedures, and bill of materials of highly regulated medical products

Bookkeeper/Grocery Stocker | Ingles Markets | Flowery Branch, GA | Jan 2017 – Jul 2018

- Managed on hand cash, checks, and gift certificates
- Mediated customer service issues, delegated tasks to associates, and managed front of store when manager was absent

PROJECTS

Project GET | July 2022 – December 2022

- Supported the transfer from old ERP system (JDEdwards) to new ERP/MRP system (OMP & S/4HANA) by leading user testing for planning department

Project Bastion | March 2022 – December 2022

- Warehouse supply chain shortages in 2021 led to executive leadership's decision to obtain a new storage facility. Performed necessary updates to ERP system to enable shipment & storage of materials to new storage facility

Transfer of Production to Sister Manufacturing Site | Oct 2020 – Jan 2021

- Sister manufacturing facility in Athens, GA was continuously producing poor quality and low yields of prolene sutures. Coordinated transfer of production for prolene suture from site in Athens, GA to site in Cornelia, GA to ensure customer demand was met
